

RV Patch Hub

Section 1 (Customer and RV Details)

Customer Name

Address

RV Info - 2022 Jayco Whitehawk

Repair Details - Wheel Bearings

A button to call customer, phone

A button to text customer, sms

Section 2 (Morning Truck Loading)

Part Needed - lists parts for job, can either open box hero to give me warehouse locations or if possible already know that info and just tell me location.

Job Checklist - checklist for tools needed. Bearing grease, jacks, inner seals, etc.

Section 3 (On way to job)

Navigate - opens Waze and inserts the address? Or google maps, I prefer Waze.

Section 4 (Job Timer)

Start Visit - one click starts my timer

End Visit - one click ends timer.

Section 5 (Notes)

Customer and job notes. This needs to tie into ghl job card.

Section 6 (Photos)

Take photos - opens camera

Access photos - looks at existing photos for this customer. Used for accessing past jobs and/or past visits for this specific repair.

Section 7 (Service Help)

A place to access service help. I use an app call RV Pocket Tech, sometimes I upload service manuals in pdf, sometimes I ask Atlas.
